

SNR-KB 宽体机型

SNR-KB 是一种宽体机型的数控等离子/火焰切割机。采用进口材料高速双轴导轨。与一般便携切割机相比，具有横向切割区域大，纵向导轨可对接延伸等特点，是介于小便携和龙门切割机之间的性价比较高的数控切割设备。

主要特点

数控系统：SF-2012AH

导轨：高速双轴芯导轨

调高方式：弧压/电容自动调高

设备机座：铝型材

有效切割宽度：1200/1500/1800mm

有效切割长度：2000/3000/6000mm 可根据客户要求定制

SNR-KB wide-track models

SNR-KB is a wide-track models of the CNC plasma, flame cutting machines, using imported materials, high-speed rail. Compared with the general portable cutting machine, this new model has many advantages, such as long regional cutting area, vertical rail may linked up and extended at any time.

Main Features

CNC control system: SF-2012AH

Rail: two-axes high-speed rail

THC: AUTO THC (support plasma or flame)

Equipment machine Block: Aluminum frame

Effective cutting width: 1200/1500/1800mm

Effective cutting length: 2000/3000/6000mm, can customize
